

WRITTEN ASSENT AND ACCEPTANCE

of Temporary Signing Authority

Granted by On-Chain Governance Proposal — Not a Self-Appointment

Effective date of this Assent: September 28, 2026

Association: LCAI DUNA (Lightchain Unincorporated Nonprofit Association)

Registered office: 30 N Gould St Ste N, Sheridan, WY 82801, USA

Wyoming filing ID: 2026-001941122 (filed April 3, 2026)

Appointed signer: Discord user monte435 | investor435@protonmail.com

Capacity: Temporary Signing Agent only (not Ministerial Agent or Administrator)

1. Purpose of this Instrument

I, the undersigned, identified in the authorizing proposal as Discord user monte435, email investor435@protonmail.com, and a Member of LCAI DUNA in good standing, execute this Written Assent and Acceptance (this “Assent”) solely to record my written acceptance of a one-time, limited appointment that the Association already made by a validly executed on-chain Governance Proposal. This Assent does not create the appointment. The appointment exists only because the Lightchain Governance Protocol recorded a passed and executed proposal of the membership.

I expressly state that I did not appoint myself; that I have no standing agency power merely by being a Member; and that I will not treat this Assent as authority to act for the Association beyond the two published instruments named below.

2. The Appointing Instrument — On-Chain Proposal

The appointment was made by the following Governance Proposal conducted on the Lightchain Governance Protocol and thereafter queued and executed on-chain:

- **Title:** Authorize Lunar Strategy Ecosystem Growth Engagement (SOW LCAI-001) and Interim Marketing Point of Contact
- | | |
|---|--------------------|
| Proposal | identifier: |
| 25293930047576357208372957279052943864473448038328354565142524695610554362479 | |
- **Governor contract:** 0xd216a0c0050edc3a9e0449ecfdf178a1652b4b68
- | | |
|---|----------------|
| Public | record: |
| https://dao.lightchain.ai/proposal/0xd216a0c0050edc3a9e0449ecfdf178a1652b4b68/25293930047576357208372957279052943864473448038328354565142524695610554362479 | |
- **Published on-chain:** September 20, 2026
- **On-chain timeline:** voting started September 21, 2026; proposal queued September 25, 2026; proposal executed September 27, 2026

- **Result:** Passed and Executed — For 335.13M (98.47%); Against 0; Abstain 5.21M; quorum 340.34M of 298.99M

The proposal text itself is the grant of authority. The operative appointment language states that, upon passage, the DAO “authorizes and directs the Ministerial Agent of the LCAI DUNA, or the temporary signing agent named in this proposal, to execute the LCAI DUNA Master Services Agreement and Statement of Work LCAI-001 v1.1 with Lunar Strategy on behalf of the Association,” and separately names “Discord user monte435 (investor435@protonmail.com), a DUNA member in good standing, as the temporary signing agent for the two documents named above.” That authority is described as one-time and as ending on full execution of those documents. The proposal further states that it “does not appoint monte435 as Ministerial Agent or as a standing signer.”

3. Legal Basis in the Association Agreement

I accept the appointment only on the grounds set out in the Association Agreement of LCAI DUNA (Wyoming filing ID 2026-001941122) and the Governing Principles:

- **Article IV, Section 4.02.** Members have no authority to bind the Association solely by membership. Article IV, Section 4.02 provides that a Member “has no authority to bind the Association to a contract, sign documents, or act in any representative capacity on behalf of the Association, absent specific authorization from a validly executed blockchain-based Governance Proposal.” This Assent rests on that specific authorization, not on membership alone.
- **Article V, Section 5.03(b) and (d).** Members may submit Governance Proposals to appoint and empower persons to perform designated functions, and to authorize disposition of Association assets in furtherance of the nonprofit purpose. The Lunar Strategy proposal is such a proposal.
- **Article VI, Sections 6.01 and 6.02.** The Association may authorize one or more Administrators or agents to carry out specific tasks through validly executed Governance Proposals. An agent or Administrator has no authority beyond the specific authorization granted. If no Administrators are selected for a task, no Member is an Administrator by default.
- **Article VI, Section 6.03.** “Any person becomes an agent by assenting in writing to the explicit designation for that person to perform the obligations established within a validly executed Governance Proposal.” This Assent is that written assent. The designation is the executed Lunar Strategy proposal. The obligations are limited to digital execution of the two published forms identified in Section 5.
- **Article VI, Section 6.04; Article XIII, Section 13.04.** Every agent is subject to the implied contractual covenant of good faith and fair dealing under Wyoming law and must perform designated obligations in good faith, whether or not a formal fiduciary duty is created. I accept that covenant for the limited act authorized here.
- **Article VI, Section 6.05.** Fiduciary duties apply only if expressly set forth in the grant of authority. The appointing proposal does not impose a standing fiduciary office on the temporary signing agent. I do not claim, and I do not accept, any office, retainer, or continuing duty beyond execution of the two named documents.
- **Article XIV, Section 14.01.** This Agreement is ratified and effective upon majority vote of the Members on the Lightchain Governance Protocol. Participation in that vote constitutes engagement

and mutual consent. The appointing proposal is a subsequent validly executed Governance Proposal under Articles V and XIV.

4. Legal Basis in Wyoming Law

The Association elected to be formed and governed as a Wyoming Decentralized Unincorporated Nonprofit Association under Wyo. Stat. Title 17, Chapter 32. Consistent with the appointing proposal and with that Act:

- **W.S. 17-32-107** — the Association is a legal entity distinct from its Members and may acquire rights and incur duties, including contract rights.
- **W.S. 17-32-102(a)(i), 17-32-120, and 17-32-123** — Members may authorize a person to perform administrative or operational tasks at the direction of the membership. The Lunar Strategy proposal is that membership direction.
- **W.S. 17-32-118** — a Member has no agency power merely by being a Member. The appointing proposal is the Member authorization required before I may execute the two published documents. Without that proposal, I would have no power to sign.
- **W.S. 17-32-104 and Association Agreement §§ 4.01 and 4.04** — Association debts, obligations, and liabilities are those of the Association. I incur no personal obligation for Association debts solely by reason of membership or this limited agency. I likewise claim no ownership interest in Association property by reason of this Assent.

Nothing in this Assent is an election of a different entity form, an amendment of the Association Agreement, or an appointment of a Ministerial Agent under Article XII.

5. Instruments I Am Authorized to Sign — and Only Those

The appointing proposal grants “a one-time, limited authority to digitally sign the two documents associated with this engagement.” I accept authority to digitally sign, on behalf of LCAI DUNA and in the exact published forms hashed below, and only those two instruments:

Instrument A — LCAI DUNA Master Services Agreement (MSA v1.3, Lunar Strategy form)

- **Published PDF:** <https://github.com/LightchainAI-Community/duna-public/blob/344a1b69de2e044b584b04ca09c4a06b4f18f6ee/LCAI%20DUNA%20MSA%20v1.3%20Lunar%20Strategy%20final.pdf>
- **Content hash:** SHA-256
A1C5DAF17D5AB8D576517E90E15E999F359DC4C4CBCE2A4AE666207C66F754B9
- **Git commit:** 344a1b69de2e044b584b04ca09c4a06b4f18f6ee

Instrument B — Statement of Work LCAI-001 v1.1 (Final for execution)

- **Published PDF:** [https://github.com/LightchainAI-Community/duna-public/blob/344a1b69de2e044b584b04ca09c4a06b4f18f6ee/Lightchain%20AI%20-%20Statement%20of%20Work%20v1.1%20\(Final%20for%20execution\).pdf](https://github.com/LightchainAI-Community/duna-public/blob/344a1b69de2e044b584b04ca09c4a06b4f18f6ee/Lightchain%20AI%20-%20Statement%20of%20Work%20v1.1%20(Final%20for%20execution).pdf)
- **Content hash:** SHA-256
F576B581B43CE55E9866F54A3E5346B34AD0C0A60A46C5C72D3DF78BF46F69F6
- **Git commit:** 344a1b69de2e044b584b04ca09c4a06b4f18f6ee

For completeness of the public record cited by the proposal, the supporting Marketing Partner Recommendation (not an instrument I am authorized to sign) is published at https://github.com/LightchainAI-Community/duna-public/blob/0a798ac04c923ea514514e27a184eb23bf733d7c/Lightchain_AI_Marketing_Partner_Recommendation.pdf,
SHA-256
B1DDCC21681615142DDD011F3F486114027EE1E13156E105E5FF5A4B54931C62.

I will sign only a counterpart whose content matches the published form and the SHA-256 hash above. I will not initial, interlineate, or accept a change to commercial terms, the \$147,000 six-month ceiling, SOW §15 add-ons, payment mechanics, or any other material term. If a counterpart does not match the hashed form, I have no authority to sign it.

6. Limits of Authority — What This Appointment Is Not

I acknowledge and agree that my authority:

- extends only to digital execution of Instrument A and Instrument B named in Section 5, on behalf of LCAI DUNA, in the published hashed forms;
- does not authorize me to vary commercial terms, raise the \$147,000 ceiling, bind SOW §15 add-ons, issue a Change Order, or negotiate new terms;
- does not appoint me as Ministerial Agent under Article XII, as Administrator under Article VI, as Designated Community Point of Contact, as a Payment Clearing House multi-sig signer, or as a standing signer for any other DUNA or DAO instrument;
- does not authorize me to transfer, swap, or disburse Treasury or multi-sig assets, to pay Lunar Strategy, or to direct kickoff of SOW work;
- does not authorize me to bind the Association to any listing agreement, market-making arrangement, additional vendor contract, or any instrument other than the two hashed documents;
- does not survive execution. Authority ends when both Instrument A and Instrument B are fully executed by the Association and Lunar Strategy (or its contracting entity named in the proposal), or earlier if the appointing proposal had failed. After that moment I have no residual signing power from this appointment;
- is not a general power of attorney, not a continuing agency, and not a representation that I speak for the Association on any other matter.

The appointing proposal is equally explicit on what it does not authorize, including signing authority for monte435 beyond the published MSA and SOW LCAI-001 v1.1. I adopt those negative covenants as conditions of this Assent.

7. Good Faith; No Personal Benefit; Indemnity Context

I will perform the designated act in good faith and with fair dealing, as required by Association Agreement §§ 6.04 and 13.04 and by Wyoming law. I will not receive an improper personal benefit from the execution. Any compensation, reimbursement, or indemnification, if it arises at all, exists only to the extent separately authorized by a validly executed Governance Proposal and by Association Agreement §§ 4.05, 6.06, and 6.07. This Assent does not itself create a right to compensation.

8. Vendor Protections in the MSA I Am Directed to Sign (§§ 23, 23A, and 23B)

The appointing proposal directs execution of the published MSA in the hashed form identified in Section 5. That form is not only a services contract for the Association. It also contains express vendor covenants that protect the Association's Members, agents, and authorized representatives — including the temporary signing agent — from personal exposure to Lunar Strategy (the "Service Provider"). I record those covenants here so it is clear that I am executing that form in reliance on them, and that they are part of why the hashed MSA is the instrument the membership authorized.

Those protections attach only when that hashed MSA is fully executed. They do not enlarge my signing authority. They are contract terms the vendor gives the Association and the persons who act for it.

- **MSA § 23 (Limited Liability).** Except for enumerated carve-outs (indemnification for third-party claims; IP infringement or misappropriation; breach of confidentiality; fraud, gross negligence, or willful misconduct; and the Association's obligation to pay undisputed fees), each party's total liability is capped at the fees paid or payable in the twelve months preceding the claim. Neither party is liable for indirect, incidental, special, consequential, or punitive damages except to the extent those damages arise from those same carve-outs. This is a mutual cap. It is not a waiver of the vendor's duty to perform.
- **MSA § 23A (No Personal Liability).** Service Provider acknowledges that the Association is a Wyoming DUNA and agrees that no member, contributor, participant, governance participant, Administrator, Ministerial Agent, officer, representative, committee member, agent, or affiliate of the Association shall have any personal liability arising out of or relating to the MSA. Service Provider's sole recourse for any claim arising out of or relating to the MSA is against the Association and its assets, if any. I am an agent and authorized representative solely for the ministerial act of signing. § 23A is the vendor's covenant that a claim on that contract runs to the Association, not to me personally.
- **MSA § 23B (Authority of Representatives).** Service Provider acknowledges that the Association acts through representatives authorized under its governing documents and governance processes; that execution of the MSA by such authorized representatives is valid and binding on the Association; and that Service Provider waives any claim that such authorization was ineffective because of the Association's internal governance procedures. Combined with the executed on-chain proposal and this Assent, § 23B is the vendor's agreement not to collaterally attack the internal process by which I was named to sign.

I also note MSA § 10 (second paragraph): the Association's indemnity to the vendor is an obligation of the Association only, and Service Provider shall not assert any indemnification or other claim against the Association's members in their capacity as members. MSA § 19B confirms that persons expressly entitled to indemnification under § 10 are intended beneficiaries of that indemnity. Those clauses sit with §§ 23–23B. They do not make me a party to the MSA in my personal capacity, and they do not survive as a grant of further signing power after Instruments A and B are executed.

Nothing in this Section 8 is a representation that Wyoming law, by itself, already gives me these vendor covenants. They are contractual. They exist because the membership directed execution of this hashed form, and because I will sign that form and no other.

9. Representations

I represent that: (a) I am the person identified in the appointing proposal as Discord user monte435, reachable at investor435@protonmail.com; (b) I am a direct owner of native LCAI coins who has engaged in the Lightchain Governance Protocol and am therefore a Member within the meaning of Articles III and XIV (the Association Agreement’s defined decentralized unit, which that instrument still labels “LCAI Tokens,” is the native LCAI coin on Lightchain L1; ERC-20 LCAI on Ethereum may still exist, but membership and this Assent refer to the native coin); (c) I have read the appointing proposal, the hashed MSA, the hashed SOW, and the Association Agreement provisions cited above; (d) I understand that passage of the proposal is the Association’s authorization and digital acceptance of those forms, and that my signature is the ministerial act of execution directed by the membership; and (e) I execute this Assent voluntarily by electronic signature under the Discord handle monte435, without disclosing a legal name.

10. Effect; Governing Law

This Assent is effective upon the electronic signature block in Section 11. It shall be construed with the Association Agreement and the appointing proposal. In the event of conflict, the appointing proposal and the Association Agreement control the scope of my authority. This Assent is governed by the laws of the State of Wyoming, without regard to conflict-of-laws principles, as provided in Article XI.

11. Electronic Assent (Pseudonymous)

IN WITNESS WHEREOF, I electronically assent in writing, under the Discord handle named in the appointing proposal and without disclosure of any legal name, to the explicit designation contained in the executed Governance Proposal identified in Section 2, and I accept the limited agency described in this Assent, effective as of the date of the electronic signature block below.

LCAI DUNA — Temporary Signing Agent (electronic / PDF counterpart)

Electronic signature: /s/ **monte435**

Identifier used for this Assent: Discord handle monte435 only. No legal name, wet-ink signature, or government identifier is provided or required. The appointing proposal named this handle, not a civil name. That is the complete identifying signature for this instrument.

Discord handle (sole public identifier): monte435

Contact named in the appointing proposal: investor435@protonmail.com

Capacity: Temporary Signing Agent only — not Ministerial Agent, Administrator, or standing signer

Authority source: executed Proposal

#2529393004757635720837295727905294386447344803832835456514252469
5610554362479

Date of electronic execution: 28 September 2026

Acknowledgment of limited duration

I repeat, so there is no ambiguity: my authority to sign does not go beyond Instrument A and Instrument B. That authority is spent, and ends, upon their execution. After those two documents are fully executed, I have no further power under this appointment to sign, amend, or represent the Association.
