

1. LCAI Brand assets: available

The [Lightchain brand guidelines](#) include logos and symbols in PNG, SVG, and JPG, light and dark variations, logo usage rules, co-branding guidance, and the approved Inter font.

Official brand colors:

- Purple: #5B4BFF
- Pink: #DD00AC
- Dark: #14152C
- Light: #CCCEEFF
- Gradient: #5B4BFF → #EE11FB

Downloads: [All LCAI assets](#) and [Inter font](#).

[Lightchain AI brand voice document](#)

2. Current narrative or messaging document: public source material available

I haven't located a standalone, approved messaging document. These resources provide a starting point:

- [Current website](#)
- [Developer documentation](#)
- [Whitepaper](#)
- [Official announcements](#)

3. Roadmap and public dates: available

The [public roadmap](#) currently lists:

Published estimate	Focus
August 2026	Audit readiness, fork preparation, DEX launch, launchpad open source, and decentralization preparation
September 2026	Audit-gated decentralization cutover, smart accounts, worker onboarding, security audit, and API/SDK groundwork

October 2026 First public API/SDK release, deeper analytics, onboarding pathways, public AI playground, and contract scoring

These dates are already public but are explicitly estimated. Some work is audit-gated.

Needs confirmation: Current completion status and any revised dates before using them in launch announcements.

4. On-chain data and dashboards: available

Resource	Link	Potential use
Mainnet explorer	mainnet.lightscan.app	Blocks, transactions, accounts, contracts, and token activity
Worker explorer	workers.lightchain.ai	Worker participation, status, stake, and supported models
DAO	dao.lightchain.ai	Proposals, voting, and governance activity
Explorer API documentation	API documentation	Data queries and reporting integrations
GraphQL	GraphQL interface	Structured explorer queries
Testnet explorer	testnet.lightscan.app	Development and testing activity

These destinations are public. Individual dashboard metrics and API responses should be validated before being cited in posts.

5. X, Discord, and Telegram: public links available; account access needs coordination

- [X: @LightchainAI](#)
- [Official Discord](#)
- [Official link directory](#)

In progress: Need Lunar X handle to provide access

6. Community guidance and content approvals: internal answer needed

The marketing team is the starting point for coordination under the arrangement previously discussed.

Needs confirmation:

- Primary content approver and backup - Cville, Monte
- Technical contact for deployment status and factual claims - Z-Lightchain AI on discord
- Community contacts available for quick guidance - Cville, Monte
- Which routine posts Lunar can publish independently - TBD
- Which announcements require approval and the expected turnaround. Which - TBD, SLA - 1 Business Day
